

Proceedings of WIS 2008

Information for Authors

July 21, 2008

The Proceedings of WIS 2008 will include a selection of all papers submitted successfully to the Fourth International Conference on Webometrics, Informetrics and Scientometrics & Ninth COLLNET Meeting at Humboldt-Universität zu Berlin, in short COLLNET 2008.

We will select all those papers which (1) the authors have agreed to publish in the Proceedings and (2) the authors had send in a form that meets a minimum standard of publication. If you use one of the templates properly—as many of our authors have already done—then you will fulfil all requirements. If you need help, please, let us know soon. The templates are accessible on the website of COLLNET 2008 (<http://www.collnet-berlin.de> → Layout Information) since March 2008. The templates have no one-column sections for big figures or tables but we recommend to use such sections (as some authors have already done).

During August you can revise your paper(s). Please note, that we will not accept any changes of titles but corrections. The authors of each paper are also fixed from now on. Please, do not forget to include the date of revision into your text. This enables readers easily to distinguish between an older and an newer version.

The deadline for the final version of your Proceedings paper(s) is Monday, the 1st of September 2008.

The Proceedings of WIS 2008 will be published as an Open Access e-book by the publishing house of the Gesellschaft für Wissenschaftsforschung Berlin (<http://www.sciencestudies.eu>), that has already published proceedings of two conferences organised by us in Berlin earlier (s. <http://www.collnet.de>).

The authors will have access to the Proceedings before their publishing date at the end of September. The updated versions of nearly all conference papers—not all of them will be included into the Proceedings WIS 2008—can be downloaded from <http://www.collnet.de/Berlin-2008>.
